

These screens belong to a new generation of screens that are simple, compact and robust.

- The height is adjustable by a telescopic upright and a tilting device ensures parallax compensation.
- A tensioning device has been specially designed to hold the screen surface taut and wrinkle free.
- The opaque projection surface bears black borders.
- Matt white screen gain: 1.2

THERE ARE 2 MODELS AVAILABLE:

- The Fly mono with a simple front screen fabric, 4:3 format, housed in a black aluminum anodized case.
- The Fly duo with a front and rear screen, 4:3 and 16:9 formats, housed in an anodized aluminum case.
