

SQUARE

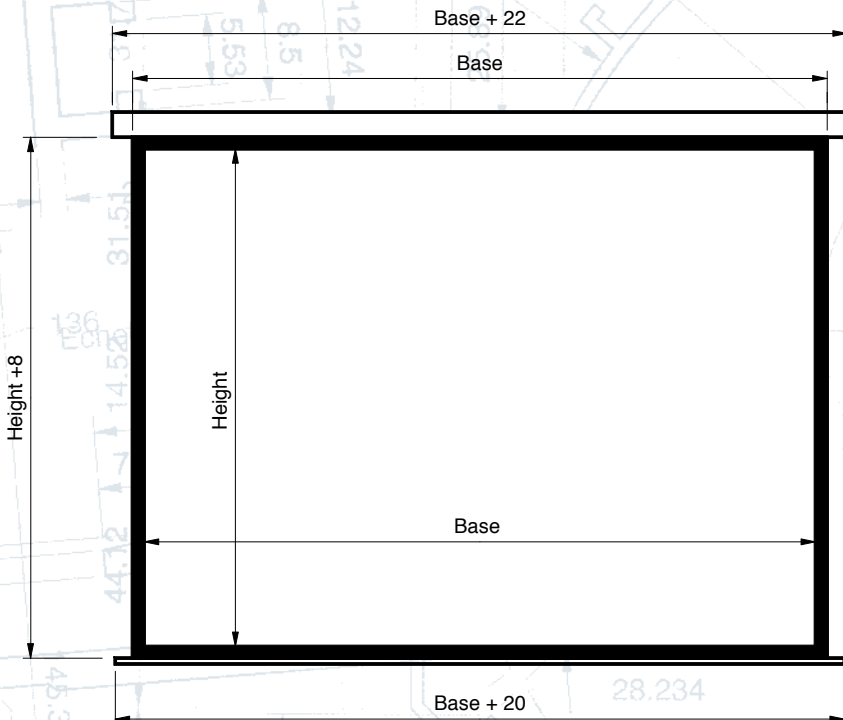

Very functional screen, ultra compact and simple to recess with its very small square 80 x 80 mm case with white epoxy finish.

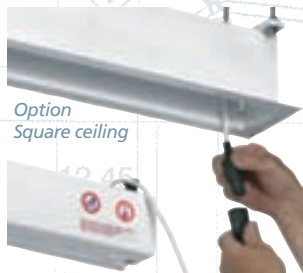

The triangular weighing bar is perfectly integrated in the case when the screen is rolled up.

There are no apparent fastenings visible once the screen is installed.

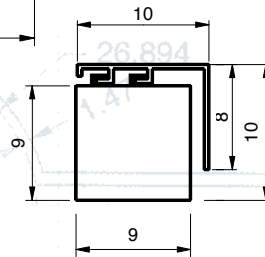

The brackets allow both wall and ceiling mounting and are supplied with the screen. Black borders only available for the HC screens.

The Square ceiling recessed screen can be mounted in two steps: the case can be installed in the ceiling during the "dirty" phase of the construction and the projection screen can then be fixed in a few minutes when the area is free of dust.

Option Square ceiling

SPEED SOLO SYSTEM

Easier and faster mounting by a single person

- 1 Place the two stand-off brackets on the wall or on the ceiling.
- 2 Insert the screen in the brackets.
- 3 Secure the mounting

The brackets are sliding along the case.

OPTIONS AND ACCESSORIES

UNDERFACE for recessed installation

Provides a simple and aesthetic integration of the screen in a false ceiling.

The underface is supplied ready to be fixed on the screen case.
