

## POL01 POLICHINELLE

Polichinelle screens are ideal for large auditoria in meeting and conference centres and large theatres. They are custom-made for all formats with an image base from 7 m up to 20 m and more. The materials used ensure that the whole system is very light and reliable. Aluminium casing. The largest screens are fitted with an aluminium or carbon fibre mandrel attached to the bottom edge of the screen to ensure it rolls up evenly and without creases.
